Larsen STRINGS

In March Larsen Strings had the pleasure of joining Gautier Capuçon and his Classe d'Excellence de Violoncelle at the Fondation Louis Vuitton in Paris. Gautier was kind enough to say some generous words about his relationship with Larsen Strings and this video interview is now live on our website.

Our close collaboration with Gautier dates back many years as does his friendship with Laurits Th. Larsen, our founder. In the video Gautier explains how he focusses upon the perfection of sound in his teaching and discusses the essence of what he looks for in his choice of strings:

'...the continuation of my voice, of my soul and heart.'

As you will see, when you visit our online video pages, we are building a collection of professionally produced films which include pre-eminent musicians in performance and in interview including specific string reviews.

Our ambition at Larsen Strings is not only to develop and produce the world's finest strings but also to show you how they can be ideally combined with your instrument to achieve your optimum sound in performance.
