

Magnacore® Ariosos: The Full Set

Christopher Franzius, First Principal Cello of the NDR Elbphilharmonie and a longtime friend, has been one of the driving forces involved in the development of the Magnacore® Ariosos Set:

“The new Ariosos A and D strings not only hold the well-known charm of the warm Larsen sound but set also new standards with their harmonious brilliance and easiest playing up to the highest positions.

The singing character of these strings facilitates wonderful, cantabile, legato passages and brings to me as a player inspiration to discover new possibilities with my instrument.

Combined with the C and G strings already on the market, they form an ideal symbiosis. The instrument sounds more free and open, it resonates longer and simply feels good. I would say: Strings to satisfy the highest of demands.”

‘Strings to Satisfy the Highest of Demands’
The New Magnacore® Ariosos set. And you.

With the completion of the Magnacore® Ariosos set, a new synergy has arrived...

At Larsen Strings we have always believed that the development process of new strings is an essential partnership of elements: A blend between creativity and innovation in the combination of materials and you, the musician.

A synergy of testing and trialling in pursuit of perfection not only in terms of the technical expertise here at Sønderborg but also, hands on, with musicians across Europe and beyond.

Timo-Veikko “Tipi” Valve, Principal Cello of the Australian Chamber Orchestra:

“For me the Magnacore Ariosos A has unprecedented tonal capabilities! The beauty, richness and quality of the sound together with power, response and precision makes it an exceptional string”
