

LARSEN STRINGS *for Cello — 'It's all about the music' —*

Larsen Magnacore® Arioso

Free your Voice: Created to 'Sing'

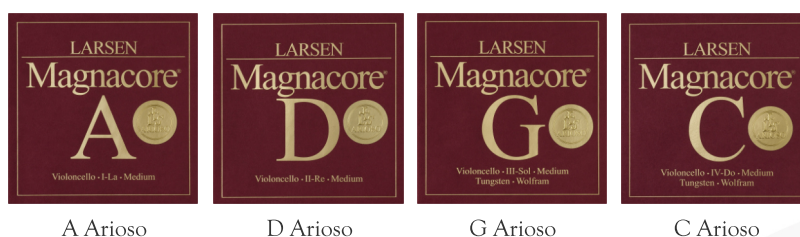

The Magnacore Arioso A and D strings have been developed to suit the needs of professional musicians in search of a pure and 'singing sound'. Produced in medium tension, these strings provide an enchanting brilliance and projection combined with a wide range of sound colours for the more advanced musician.

The Magnacore Arioso G and C deliver a lower tension without compromising sound volume. Liberating and accentuating the A and D in your overall sound whilst providing an easy response and effortless playing in the lower register.

Magnacore Arioso strings are well suited to both older Italian as well as to modern instruments and are designed for the gourmet musician experimenting with new combinations of sound texture and colour.

String Details

The Magnacore Arioso A and D are made on a solid steel core and wound with high quality precision rolled flat wire. The Magnacore Arioso G and C strings are formed on a concentric multi-stranded steel core and wound with high-grade tungsten and precision rolled flat wire.

Larsen Magnacore Arioso		Arioso kg/lbs

Aiming for sustainable solutions: at Larsen Strings the aim is to progressively work toward sustainable solutions in the way that we operate as a company. Some steps are small and some, such as our decision to upgrade to a CO² neutral electricity plan are larger steps towards our destination.
