 Set Tension ◆◆◆◆◆◆◆◆◆◆◆◆◆◆◆◆◆◆
 String Resistance ◆◆◆◆◆◆◆◆◆◆◆◆◆◆◆◆◆◆

We offer the Il Cannone strings in two varieties, medium and a soloist. By comparison, the Medium has a moderate tension, it is more noble and round, and often opens up the instrument sound. The Soloist version has a higher tension, and brings a fuller tone, with even more power, presence and focus with more resistance to the bow. Your choice of version depends upon your instrument and style of play.

Il Cannone Direct & Focused - Our most versatile option.

A logical add on to the Il Cannone family. The aim is to offer new possibilities to optimise the instrument in sound and playability. In comparison to our original Il Cannone strings, Direct & Focused strings are clearer, more clean and bright, and more direct sounding.

The Il Cannone strings, as above, have in comparison to these sets a warmer and darker sound. From a playability perspective, the Direct & Focused sets offer some more resistance to bow and fingers.

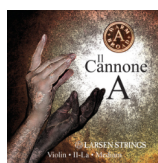

Il Cannone Options - add projection/add warmth

Our strongest E string, the 0.28 is wonderfully powerful and enhances the whole instrument's sound, making it more dense and increasing focus.

0.28

Add warmth to your Il Cannone set-up with the broader depth of the Warm & Broad A option in Medium or Soloist.

Il Cannone Silver - The brilliant option in 99.85% pure silver.

Our Il Cannone Silver set introduces a bold, shining voice to the Il Cannone family. Designed for violinists seeking a silvery brilliance with an increased overtone resonance and superior projection.

This set features five strings, including two distinct E strings to match your sound: a bold & powerful Silver E and a sparkling & focused Caprice E.

Il Cannone E Options

Silver E string. Soloist tension. Powerful, bold and silvery.

Caprice E. Higher tension (.275). Sparkling, focused and brilliant. *Ideal for instruments that benefit from added brilliance.*

Il Cannone Gold - The luxurious glow in 10k gold.

These are the most powerful strings in the family with high durability built in by design. Il Cannone Gold offer a unique strength for violin strings, enhancing the core sound of the instrument. They offer a vibrancy that makes the entire instrument resonate as if the strings are in perfect sync with the violin. The sound of these strings is truly glowing and crisp, robust and carrying.

Il Cannone Gold is the zenith of our Il Cannone violin strings family with the golden touch of lasting luxury.
